

SpringPort™ Wireless Ethernet Module

For the Handspring™ Visor™ Handheld

The Xircom® SpringPort Wireless Ethernet module works with your Handspring Visor handheld computer to provide mobile access in an 802.11b Wireless Local Area Network (WLAN). Hot-sync your data, and access the Internet, E-mail and network resources right from the palm of your hand. Stay connected wherever you are while roaming about the workplace or campus, with high-performance speeds up to 11 Mbps* and secure wireless connections.

What is SpringPort?

SpringPort modules from Xircom turn your Visor handheld computer into the ultimate communication tool for accessing the Internet, E-mail, and network resources. Visor handhelds let you hot-swap Springboard™ modules—you can install Xircom SpringPort modules whenever and wherever you want. Just snap the SpringPort module into your Visor handheld and you're ready to connect.

Why Wireless Ethernet?

- It increases productivity throughout your workplace or on campus by reducing downtime and providing wireless access to real-time data.
- It extends the reach of your wired network without the expense of added cabling.

Freedom of True Mobility

Access current network information, the Internet and E-mail anytime while moving around your building or campus.

Easy Setup

Connect instantly to your Wireless Local Area Network—just snap in a SpringPort Wireless Ethernet module for access.

Security

Communicate with confidence that your data is safe and secure—up to 128-bit WEP (Wired Equivalent Privacy) data encryption protects your data.

Flexibility

Hot-swap modules even when your Visor handheld is in use.

Compatibility

Connect without hassles—IEEE 802.11b high-rate standard means broad industry compatibility—SWE is compatible with all Visor models.

World-Class Support

Get technical support from Xircom on the Web at www.xircom.com or by telephone.

Warranty

The Xircom one-year limited warranty guarantees your hardware and software.

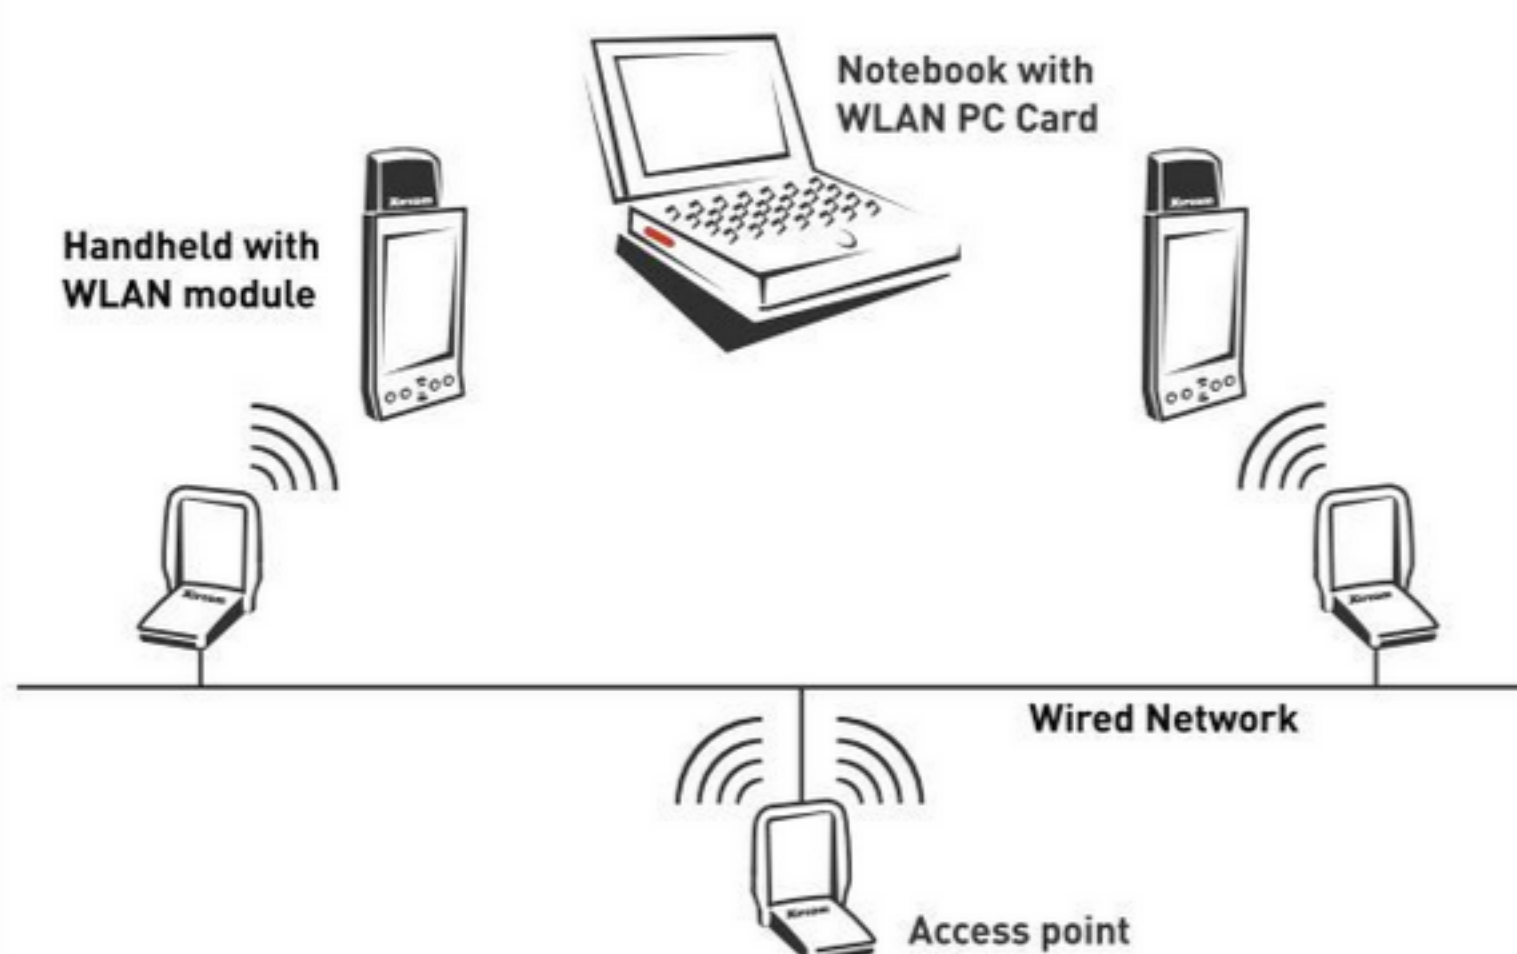

Wireless by Cisco Systems, Inc.

SpringPort Wireless Ethernet Module—the ideal WLAN Solution for your Visor handheld

- Wireless freedom in your workplace or on campus
- High-speed performance, up to 11 Mbps*
- Compatible IEEE 802.11b high-rate standard
- Setup is fast, easy and flexible
- Secure wireless data transmission

What is a

In a Wireless Local Area Network (WLAN), access points send and receive data traveling between the wired network and wireless users, with in-office ranges up to 300 feet (90 meters). Data travels via radio waves, not through wires. With WLAN solutions from Xircom, you can move freely about the building or office while maintaining a high-speed link to the Internet, E-mail and your network. Industry adoption of the IEEE 802.11b standard assures broad compatibility,

Specifications

Model

SWE1130
SpringPort™ Wireless Ethernet
module

System Requirements

Handspring™ Visor™ handheld,
Palm® Operating System
Compatible with all Visor models

Standard

IEEE 802.11b high-rate standard for Wireless
Local Area Networks

Network Architecture Types

Supports peer-to-peer networking and
communication to wired networks
via access points

Data Rates Supported

1, 2, 5.5 and 11 Mbps*

Modulation

11 Mbps and 5.5 Mbps: CCK;
2 Mbps: DQPSK; 1 Mbps: DBPSK

Wireless Medium

Direct Sequence Spread Spectrum (DSSS)

Media Access Protocol

Carrier Sense Multiple Access
with Collision Avoidance (CSMA/CA)

Security

Supports 0, 40 or 128-bit WEP
(Wired-Equivalent Privacy) encryption

Bundled Software

Handspring Blazer™ Web Browser
and MultiMail SE E-Mail Client

Frequency Band

2400-2483.5 MHz

Operating Channels

11 channels (US, Canada)
13 channels (ETSI)
4 channels (France)
14 channels (Japan)

Roaming

IEEE 802.11b compliant

Typical Range at 1 Mbps

Up to 1000 ft (300 m) in open environments
and 300 ft (90 m) in office environments

Typical Range at 11 Mbps

Up to 300 ft (90 m) in open environments
and 100 ft (30 m) in office environments

Battery

Lithium-ion rechargeable
2 hours of continuous usage

LED Indicators

Active, Status and Charging

Certifications

FCC Class B, FCC Part 15.247, Canada ICES
Class B, CE, UL, CSA
Call for other information outside the USA

Warranty

One-year limited warranty
