

# ACDSee 1.0 for Mac®

Software for viewing eyemodule™ images and QuickTime™ movies

## step 1

Launch the ACDSee application which was installed during the eyemodule conduit installation process (page 20 in the manual).

## step 2

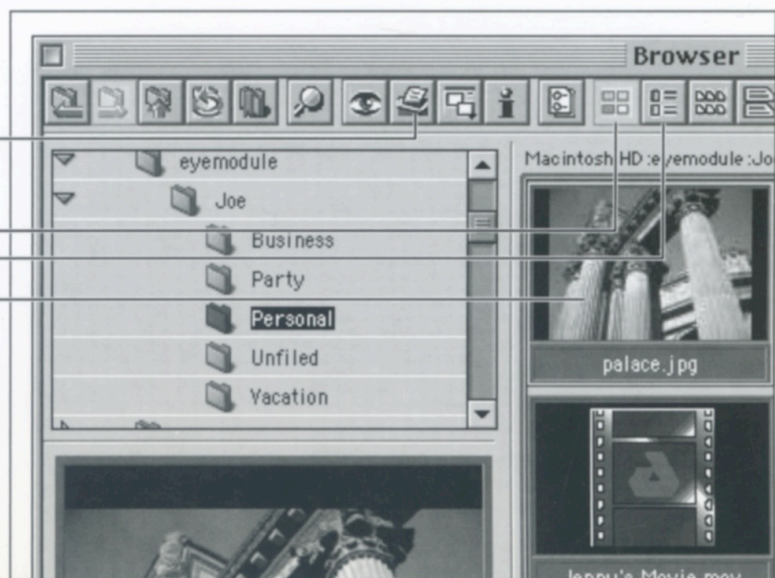

Locate the eyemodule folder on your computer.

Click here to print selected image.

Click here to view images as **thumbnails** or as a **list**.

Double-click on an item to view an image at its full size (shown in step 3) or to play a movie.

To rename an image, select **Rename** under the Edit menu.

## step 3

You can browse all the images in the current folder by pressing the page up or down keys.

For full instructions on using ACDSee, technical support, and to download the latest version, visit: [www.acdsystems.com](http://www.acdsystems.com)

# ACDSee 1.0 for Windows®

Software for viewing eyemodule images and QuickTime movies

## step 1

ACDSee is automatically installed during the eyemodule installation process (page 20 in the manual).

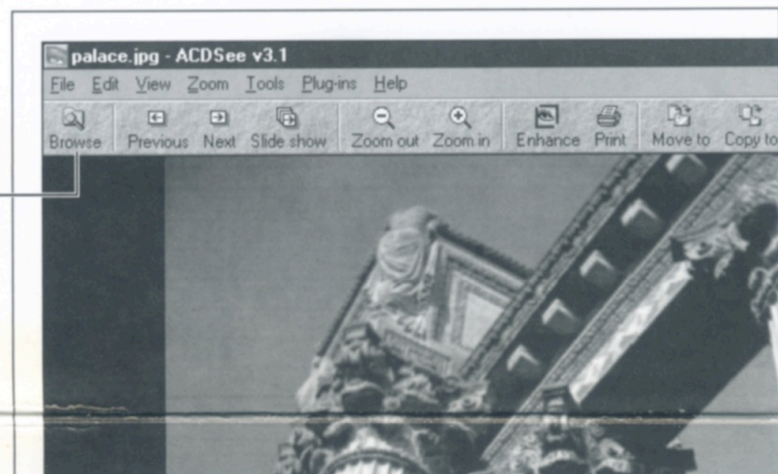

Locate the eyemodule folder on your computer. Double-clicking on an image file will open them in ACDSee.

## step 2

You can browse all the images in the folder by pressing the page up or down keys.

Click here to **browse** other categories or to view thumbnails of the images in the current category.

## step 3

To view as thumbnails, go to the view menu and select **Thumbnails**.

After selecting desired images you can

**print,**  
**e-mail,**  
**rotate and crop,**  
**share online,**  
**or rename**

the files. Double-click on an item to view an image at its full size or to play a movie.
